Policies & Procedures of Way2Wealth Brokers Private Limited

The underlying document outlines various policies and procedures Way2Wealth Brokers Private Limited (WBPL) has framed with respect to its dealing with clients for Capital market, Derivative Market, Currency Market and Commodities Market transactions to ensure transparency and facilitate understanding on various aspects related to service delivery. Kindly note that the below stated policies and procedures are subject to change from time to time, depending upon our internal risk management framework, market, and external environment.

1. Policy for Penny Stock

WBPL normally offers trading facility to its clients in all the compulsorily dematerialized stocks which are listed on the Stock Exchanges. Generally, WBPL alerts clients to desist from trading in any penny stocks in view of the associated risk element while dealing in such stocks. Further the client is also required to adhere to Exchange / Member's guidelines and due diligence while trading in such stocks. Also, SEBI / Exchange from time-to-time issues directives necessitating additional due diligence for dealing in such stock(s).

"Penny Stock" for this purpose shall include

- i) Stock that trades at a relatively low price and has small market capitalization
- ii) Stocks appearing in the list of illiquid securities issued by the Exchanges from time to time
- iii) Securities listed in Z, T, TS, S series available for institutional category on BSE and / or securities listed in BE, IL, BT or EQ series on NSE.
- iv) Any securities as may be restricted for trading by Exchanges
- v) Any other securities as may be restricted for trading by WBPL based on its internal evaluation

These types of stocks are generally considered to be highly speculative & high risk because of their lack of liquidity, large bid-ask spreads, small capitalization, and limited disclosure.

We at our sole discretion, may impose certain restrictions and / or conditions (on case-to-case basis), subject to rules, regulations, byelaws, circulars, directives and guidelines of SEBI and Exchanges as well as considering the prevalent market and other circumstances and risk policies at a related point in time. These restrictions / conditions include but are not limited to the following:

- a) Restrict wholly or partly for trading, in certain security(ies) or category of security(ies) / contracts viz.
 - a. Illiquid stocks / stocks having low liquidity,
 - b. Illiquid options / far month options / long dated options,
 - c. Writing of options,
 - d. any other securities / contracts which as per the perception of WBPL are volatile or subject to market manipulation or has concentration risk at client level or at the company level,
- b) accept or partially accept an order for buy and / or sell. Such acceptance may require execution in a controlled environment (for e.g., from centralized desk instead of from designated dealing area or online platform),
- c) Cancel orders in above securities / contracts received from clients before execution or after partial execution without assigning any reasons thereof,
- d) Require the client to provide appropriate declarations before / after accepting such orders. Further, in case of Internet Trading clients, WBPL may at any time at its sole discretion block / restrict the client's online trading terminal to prevent the client from placing orders in such penny stocks through online trading terminal of WBPL.

WBPL shall –

- a) not be responsible for non-execution / delay in execution of such orders and consequential opportunity loss or financial loss to the client,
- b) have the discretion to place such restrictions, notwithstanding the fact that the client has adequate credit balance or margin available in his account and / or the client had previously purchased or sold such securities / contracts through WBPL itself,
- c) have the right to revise the list of such securities / contracts on a periodic basis. Client can obtain the information about the updated list of securities from the Relationship Manager / Dealing Branch office / Authorised Person

2. Setting up client's exposure limits

Settlement / Margin obligation:

The Exchange bye-laws requires a member broker to adhere to various trading and settlement obligations and conditions which include but are not limited to –

- a) upfront margin maintenance requirements with the Exchange / Clearing Corporation prior to taking an exposure in the market,
- b) cash and collaterals / securities in form of margin pledge, in prescribed ratio, for margin maintenance,

To enable WBPL to meet the obligation on behalf of the client, WBPL seeks client's cooperation to maintain adequate margin, make timely settlement of obligations, top-up margin by scheduled date, etc.

Exposure setting:

Margin based limit / exposures will be set for clients for transacting in Cash and Derivatives

segment. WBPL may from time to time impose & vary such limits on the orders that the client can place through the WBPL's trading system {including exposure limits, turnover limits, limits as to the number, value and / or kind of securities in respect of which orders can be placed, Type and/or proportion of various acceptable collaterals etc.}. The client is aware and agrees that the WBPL may need to vary or reduce the limits or impose new limits urgently on the basis of the WBPL's risk perception and other factors considered relevant by the WBPL including but not limited to limits on account of exchange / SEBI directions / limits (such as Restricted Use – for Registered Clients broker level / market level limits in security specific / volume specific exposures etc.) and the WBPL may be unable to inform the client of such variation, reduction or imposition or the clients inability to route any order through the WBPL's trading system on account of any such variation, reduction or imposition of limits.

The client further agrees that the WBPL may at any time, as it sole discretion and without prior notice, prohibit or restrict the client's ability to place orders or trade insecurities through the WBPL, or it may subject any order placed by the client to a review before its entry into the trading systems and may refuse to execute / allow execution of orders due to but not limited to the reason of lack of margin / securities or the order being outside the limits set by WBPL / exchange / SEBI and any other reasons which the WBPL may deem appropriate in the circumstances.

The client agrees that the losses, if any on account of such refusal or due to delay caused by such review, shall be borne exclusively by the client alone.

WBPL shall have the discretion to allow differential limits / exposures /components & composition of acceptable collaterals varying from client to client, depending upon client's trade history / experience, if available, his financial capacity and / or credit worthiness and /or surveillance alerts generated for the client and / or through referral of each client.

WBPL have margin-based RMS system. Total deposits of the clients are uploaded in the system and client may take exposure based on margin applicable for respective security as per regulator defined min. Margin and/or VAR/SPAN based margining system of the stock exchange and / or margin defined by RMS based on their risk perception. Client may take benefit of “credit for sale (basis the predefined percentage release)” and use the same for trading for the Product types as per the discretion of W2WB.

In case of exposure taken based on shares margin the payment is required to be made before the exchange pay in date otherwise it will be liable to square off after the pay in time or any time due to shortage of margin.

While computing the available margin, clear credit lying in client’s settlement and margin ledger, approved securities pledged as margin with appropriate haircut may be considered as margin. Margin can be paid in form of cash and approved securities as margin pledge. Pledged securities will be valued on daily basis at previous day’s closing price and appropriate haircut as applicable. The Cash/Cash Equivalent to Non Cash collateral component shall be maintained equally, however at sole discretion of W2WB this ratio may be altered basis specific client request and/or relationship proposition.

In case the payment of the margin / security is made by the client through a bank instrument, the WBPL shall be at liberty to give the benefit / credit for the same only on the realization of the funds from the said bank instrument etc. at the absolute discretion of the WBPL. Where the margin / security is made available by way of securities or any other property, the WBPL is empowered to decline its acceptance as margin / security or to accept it at such reduced value as the WBPL may deem fit by applying haircuts or by valuing it by marking it to market or by any other method as the WBPL may deem fit in its absolute discretion.

List of approved collaterals / securities along with applicable haircut, is subject to revision from time to time based on Exchange approved list, market volatility, quality of collateral and internal

5. Client Unpaid Securities Pledge Account (CUSPA)

In order to further streamline the process of handling client securities and give visibility to clients on the securities purchased for delivery, SEBI has mandated brokers to open a Client Unpaid Securities Pledge Account (CUSPA). The new framework for this account has come into effect from 1st April 2023.

- Equity Cash market trades are now settled on T+1 day, where T refers to the trade day and settlement (funds and securities) of same happens the next working day from the Exchange Clearing Corporation to the Brokers pool account.
- Brokers are required to credit securities from their pool account to the buyer's account within 1 working day from the settlement day.
- If the buyer client continues to have a debit balance in their Ledger account on the settlement day, the securities purchased are classified as Client Unpaid Securities. In the new process of CUSPA settlement these Unpaid securities will be transferred to the buyer client's DP account along with the creation of an auto-pledge in favour of Broker -I.e. Way2wealth Brokers Pvt. Ltd. (W2WB) Client Unpaid Securities Pledge Account (CUSPA).
- Shares worth 125% of the net debit subject to a min of 1 security of Highest value (in case of value of 1 security is much higher than the 125% debit valuation) will be held as Client Unpaid securities under pledge to W2WB CUSPA and the remaining securities will be transferred to the Client's DP account within T+1+1 (Settlement day) as free unencumbered securities. Please note Un cleared cheques (i.e. cheques in clearing) as on date of settlement will be considered as debit balance and as such the securities to cover such debit would be held under pledge to W2WB CUSPA acc. As mentioned herein above.

- If the client fulfills the fund obligation i.e. Debit balance within 4 trading days from the pay-out day (T+1+3) either through funds payin or thru sale of any of the securities held as free unencumbered balance in of the Client DP account or the said Unpaid Securities , the pledge will be released and the securities will be available as free balance in the client's DP account on completion of the payout (in case of clearance of Debit by sale of securities).
- If the client does not clear the debit balance in ledger for the said settlement by credit of funds or sale of securities duly delivered within 4 trading days from the pay-out day (T+1+3), the Client Unpaid securities of that particular settlement will be sold in the market on T+1+4 by W2WB to recover debits or dues, including mark to market loss of Client unpaid securities, penalties, interest, DP charges, etc. and in case such sale of securities does not cover the full debit including the charges as mentioned then W2WB would recover such shortage form client by sale of any other securities held as Pledge including Margin pledge Collateral /other Unpaid securities pledge in CUSPA acc.
- Any excess valuation of The Unpaid Securities over the debit balance will not be eligible to be considered to calculate the margin obligation of the client for any other transaction.

Please note total ledger debit of client account across exchange segment is considered for the purpose of liquidation of Unpaid Securities on any date. Therefore, it is advisable to ensure timely clearance of ledger debits to avoid any losses or risks.

7. Shortages in obligations arising out of internal netting of trades

It was mandated by SEBI to have a single designated clearing corporation across all exchanges under interoperability for BSE, NSE and Metropolitan Stock Exchange. Hence, after opting for NCL (NSE) as our sole clearing house across all exchanges in cash market, it has become imperative for us to revise our internal shortage policy.

Internal shortage arises when delivery pay-in / pay-out of sold / bought scrip remains unsettled between seller and buyer clients of the same broker. In simpler words, when the seller of a security fails to deliver his securities that results in short delivery to another buyer client of the broker.

Stock-broker shall not be obliged to deliver any securities or pay any money to the client unless and until the same has been received by the WBPL from the exchange, the clearing corporation / clearing house or other company or entity liable to make the payment and the client has fulfilled his / her / its obligations first.

Clients are required to make Securities / Funds Payin on or before T+1 day. In case the client defaults on its existing obligation and in the event the trade has been internally netted off by WBPL, there could be internal shortages. The internal shortages are marked against the client randomly at the sole discretion of WBPL taking into account the delivery obligations through Exchanges.

The policy and procedure for settlement of shortages in obligations arising out of internal netting of trades is as under:

- a) The Short delivering client is debited by an amount equivalent to 20% of the above of closing rate of day prior to Pay-in / Pay-out Day as provisional debit.
- b) Shares which are short delivered by clients and are internal short are closed out at the higher of exchange auction/valuation price or days highest price (from trade date till auction date), and the provisional debit as mentioned in point 7 a above is reversed.
- c) In cases of securities having corporate actions all cases of short delivery of cum transactions which cannot be auctioned on cum basis or where the cum basis auctioned on cum basis auction payout is after the book closure / record date, would be compulsory closed out at official closing price on the auction day or the highest traded price from first trading day of the settlement till the auction day. A penalty as applicable from time to time, will be imposed on the defaulting client. Rate of penalty will be decided by member as applicable from time to time and published on our website. Defaulting client will not be eligible for any profit on account of this.

8. Conditions under which a client may not be allowed to take further position, or the broker may close the existing position of a client

Stock-Broker has margin-based RMS system. Client may take exposure up to the amount of margin available with us. Under various circumstances outlined in the Liquidation Policy section of the document, the Client may not be permitted to take any fresh or further position until the full clearance of earlier dues, obligation, outstanding etc. The existing position of the client is also liable to square off / close out without giving notice due to shortage of margin / non making of payment for their pay-in obligation / outstanding debts.

Further, it would be the duty of the client to monitor its position with WBPL from time to time. In case of any delay or failure by the client in meeting any obligation, margin requirements etc. WBPL, at its discretion, may close the open position / contracts without any further intimation to the client in this regard as per the Risk policy.
